

Navid Ziran, MD, FACS, FAAOS

Orthopaedic Trauma Surgeon & Innovator

I am a practicing, board-certified orthopaedic trauma surgeon with a focus on polytrauma, pelvic and acetabular fracture care, and medical device innovation. I received my bachelor's degree in physics and genetics from Duke University, followed by a medical degree from Case Western Reserve University School of Medicine.

I am currently expanding my technical skill set in software development and artificial intelligence, with an emphasis on building practical, AI-based solutions that can be applied in the operating room to support clinical decision-making.

Projects

Module 1 Project: Personal Developer Website (Flask)

This site was built using Flask, HTML templates, and CSS. It includes a homepage, a contact page, and a projects page, all accessible through a navigation bar.
