Navid Ziran, MD, FACS, FAAOS

Orthopaedic Trauma Surgeon & Innovator

I am a practicing board-certified orthopaedic trauma surgeon with a focus on polytrauma, pelvic and acetabular trauma, and medical device innovation. I am currently expanding my technical skill set in software development and artificial intelligence, with an emphasis on building practical, AI-based solutions that can be utilized in the operating room.

Projects / Publications

Module 1 Project: Personal Developer Website (Flask)

This site was built using Flask, HTML templates, and CSS. It includes a homepage, a contact page, and a projects/publications page, all accessible through a navigation bar.
